

Krav iht. siste gjeldene revisjon av BREEAM-NOR v6.0 som kan finnes på <https://byggalliansen.no/>.

Egendeklarasjon på at navngitt byggeprodukt tilfredsstiller minimumskrav til miljøgifter i BREEAM-NOR v6.0 iht. Mat 02

PRODUSENT:

HANDELSNAVN:

PRODUKT ID:
(Dersom flere enn ett, benytt Vedlegg 1)

Dette skjemaet skal fylles ut og undertegnes av en juridisk ansvarlig person hos produsent av byggeproduktet. Feilaktige opplysninger kan få juridiske etterspill.

Det bekreftes herved at produkt(ene) overholder gjeldende kjemikalier regelverk med gitte begrensninger, grenseverdier og innholdsstoffer iht. følgende lister:

- REACH artikkel 59(10) - Kandidatlisten

Ved enhver oppdatering av listene, skal produsenten sjekke om noen av de nye stoffene på listen inngår i produktet. Produktet må vurderes for å kontrollere at det fortsatt overholder gjeldende kjemikalier regelverk med gitte begrensninger, grenseverdier og innholdsstoffer iht. ovennevnte lister. Hvis de gjeldende krav ikke er overholdt, må egendeklarasjonen settes som utgått.

Skjemaet er utarbeidet av Skanska, NCC, Peab og Hent m.fl. Det distribueres fritt gjennom Cobuilder. Brukere av skjemaet er selv ansvarlige for å forsikre seg om at de bruker riktig versjon og at innholdet er riktig. Verken Skanska, NCC, Peab, Hent eller Cobuilder kan holdes ansvarlige for eventuelle feil. Utfylte skjema er ingen offisiell godkjenning fra Skanska, NCC, Peab, Hent eller Cobuilder.

Støttedokument bør holdes lett tilgjengelig for eventuell kontroll av revisor.

Appendix 9 Declaration on substances excluded from construction products, construction goods and materials

The declaration applies to manufacturers of any of the following building products, goods and building materials:

☐ Sealing products (such as vapour, wind and radon barriers, fixed waterproofing of wet rooms, roof surfacing and roofing membrane).	☐ Thermal, acoustic and technical insulation.
☒ Interior and exterior building panels (besides panels of solid wood, laminated timber, veneer, OSB, plywood, MDF/HDF and chipboard)	☐ Interior plastic coverings for floors, ceilings and walls*
☐ Wood composites	☐ Wood that is impregnated as protection from rot, blue stain and mould.
☐ Drainage pipes*	☐ (Electrical) conduits*
☐ Heavy current cables*	☐ Other. Please specify: _____
☐ Plastic pipes for central vacuum cleaners*	

* Service areas are exempt from the requirement. Service areas are fan rooms, substations, lift shafts, machine rooms, electricity centers and other areas to which unauthorized persons do not have access.

Name of the product, Denmark	High Pressure Decorative Laminates MPL
Name of the product, Finland	High Pressure Decorative Laminates MPL
Name of the product, Iceland	High Pressure Decorative Laminates MPL
Name of the product, Norway	High Pressure Decorative Laminates MPL
Name of the product, Sweden	High Pressure Decorative Laminates MPL
Manufacturer	Formica Group Europe.

This declaration is completed and signed by the manufacturer of the building product or building material based on the knowledge at the time of the application, based on tests and/or declarations from raw material manufacturers, with reservations for new advances and new knowledge. Should such knowledge arise, the undersigned is obliged to submit an updated declaration to Nordic Ecolabelling.

By "included" is meant substances added by the producer or its sub suppliers and that are included in the end-product with more than 100 ppm.

Are any of the following substances included in the building product/material?

- Substances on the EU's Candidate List*) Yes ☐ No ☒
- Substances evaluated by the EU to be PBT substances or vPvB substances in accordance with the criteria in Appendix XIII in REACH including substances that has not been evaluated but are considered to meet the requirements Yes ☐ No ☒
- Substances classified as carcinogenic, mutagenic or toxic for reproduction (CMR) Category 1A and 1B**) Yes ☐ No ☒
- Substances considered to be potential endocrine disruptors in category 1 or 2 on the EU's priority list of substances that are to be investigated further for endocrine disruptive effects***) Yes ☐ No ☒
- Short-chain chlorinated paraffins (C10-C13) and medium chain chlorinated paraffins (C14-C17) Yes ☐ No ☒
- Perfluorinated and polyfluorinated alkylated substances (PFASs) Yes ☐ No ☒
- Alkylphenol ethoxylates (APEO) and other alkylphenol derivatives (substances that release alkylphenols on degradation) Yes ☐ No ☒
- Brominated flame retardants****) *****) Yes ☐ No ☒
- Phthalates Yes ☐ No ☒
- The heavy metals lead, cadmium, arsenic, chromium (VI), mercury and their compounds Yes ☐ No ☒
- Bisphenol A, bisphenol S and bisphenol F Yes ☐ No ☒
- Boric acid, sodium perborate, perboric acid, sodium borate (borax) and any other boron compounds classed as carcinogenic, mutagenic or reprotoxic Yes ☐ No ☒
- Tin organic compounds Yes ☐ No ☒

*) The Candidate List can be found on the ECHA website at: <http://echa.europa.eu/sv/candidate-list-table>.

**) In EPS and XPS insulation material manufactured by polystyrene, residues of styrene monomer are allowed in maximum 1000 ppm in the polystyrene (i.e. in the raw material).

***) See document Annex 1-Candidate list of 553 substances on the following link: http://ec.europa.eu/environment/archives/docum/pdf/bkh_annex_01.pdf

****) Insulation foam (EPS and XPS), exposed for risks of ignition during production (at the construction site or during manufacturing of prefabricated construction parts) may, when the fire protection assessment show medium to high risk of fire, be protected with butadien styrene brominated copolymer as flame retardant. Examples of risks of ignition are welding works, electricity errors, halogen lighting or concentrated sunlight. The fire protection assessment shall be performed by a competent expert technician (construction expert, fire risk expert or person with similar competence). The licence holder must apply in written and project specific for exception, to Nordic Ecolabelling.

*****) The material in (electrical) conduits may contain brominated flame retardants provided that the following limits are fulfilled:

- Bromine content (Br) $\leq 0.15\%$
- Chlorine content (Cl) $\leq 0.15\%$
- Total content: bromine content (Br) + chlorine content (Cl) $\leq 0.2\%$

The content must be verified using Ion Chromatography (IC) according to the methods in EN 14582 or modified IC-methods according to EN50642.

Signature of manufacturer of the construction product/goods/material

City and Date North Shields, 18.03.2021	Company Formica Group Europe
Name of contact person Mayana Braune	Signature by contact person 
Phone +44(0)191 2593208	E-mail certification@formica.com

A correct signed declaration can result in the acceptance of use of the construction product in Nordic Swan Ecolabelled buildings. This shall not be mixed up with the Nordic Swan Ecolabelling of the construction product.
